indoors and outdoors

PROVECTA[®]
HIT

ALL IN WEB Technology

Innovative ALL IN WEB technology creates a three-dimensional structure resembling a spider's web that physically immobilizes insects. Thanks to this mechanism, it is possible to combine an immediate effect with safe use in the home environment.

SUITABLE FOR USE AT:

HOME

Effective protection
for your living space

BEDROOM

A hygienic environment
for restful sleep

KITCHEN

Effective and safe
for food preparation areas

OFFICE

For a clean and comfortable
working environment

CAR

Protection while traveling

PANTRY

Pest protection
for stored food areas

HOW TO USE:

1. IDENTIFY

Spot the insect.

2. SPRAY

Cover the insect with a thin
spray layer of the product.

3. STOP

The unique ALL IN WEB™ technology creates a three-dimensional "spider's web" structure that instantly immobilises insects, preventing them from moving or feeding.

4. REMOVE

After treatment, remove the immobilised
insects – no trace, no trouble.

EFFECTIVE AGAINST:

bed bugs

cockroaches

spiders and
other arachnids

stored
product pests

fleas

silverfish

ants
